

Executive Biography

Leonard Weitman Vice President Technical Operations

Leonard joined BendBroadband during March of 2010 and oversaw design, construction and start-up of the Vault facility in addition to guiding BendBroadband's Technical Operations. Prior to joining BendBroadband he had over 25 years of operations management in the semiconductor and solar device industries. Leonard has extensive experience managing mission critical operations in highly technical facilities. He holds a BS in Industrial Engineering and an MS Engineering Management.
